

Jyotish Forecast

MARCH/APRIL 2011

HIGHLIGHTS

Mercury, the planet of the rational mind, communication, commerce, trade, study, speaking, writing, etc. is having a difficult time. Doing one or more of the Mercury remedies (upayas) below can help you in these areas. This is especially important until April 8 but will be helpful until May 12.

The main energy of note is the opposition of Jupiter & Saturn which is exact from March 25 thru April 1 inclusive. Both of them are strong* so to best combine their energies, watch for expansion or opportunities and apply yourself to take advantage of them. Balance your enhanced sense of generosity and optimism with practicality and frugality by reusing or repurposing (donating). It's an especially good time to focus within and on your true purpose before taking action. You are being supported in all these areas.

Triggering transits on April 3 may spark a worldly event related to Jupiter/Saturn/Mars energies (revolutions?) on that day or soon thereafter.

The Lunar New Year on April 4 is an auspicious day for any/all activities.

* Saturn is affected by Mercury's difficulties, so doing Mercury remedies will help Saturn's energies, especially Mercury-related such as concentration and analysis, and planning.

Upayas to strengthen Mercury - begin or do on a Wednesday:

- ◊ Wear your Vedic gemstone for Mercury (emerald or secondary stone) if you have one that's been prescribed.
- ◊ Chant Mercury's mantra (OM BUDHAYA NAMAHA, or OM BUM).
- ◊ Use Mercury's yantra (shown here).
- ◊ Wear or be around green and earth tones.
- ◊ The aromas (including incense) of basil and sandalwood can be used to clear and calm, respectively.
